

## Welcome

Home Health agencies are a vast resource for persons in need of health care assistance in their own home. A wide array of services can be performed in a person's familiar surroundings. These services can be provided when an individual or a family member is in need of specialized treatment, personal care assistance or just needs a respite care for a loved one.

A Plus Home Health Care, Inc. is the leader in home health care in Northwest Indiana. We are a fast growing home health agency catering to the health care needs of our clients. We only employ nurses and allied health care professionals with experience and a dedication to make a difference.

Our services are completely paid for by Medicare with no cost to you. We are inviting you to experience why we are the most trusted name in home health care.

## About Us

A Plus Home Health Care, Inc. is founded on a history of caring for others. We are committed to the curative, restorative and preventive aspects of quality care including the right of individuals to remain in their own homes living with dignity.

A Plus Home Health Care, Inc. was founded in 2003. Since that time, we have become one of the largest and most trusted home health agencies in Northwest Indiana. All our professionals are registered, licensed or certified by the State of Indiana. In addition, each of them receives frequent training in new techniques, procedures and treatments.

Our staff is just a phone call away, 24 hours a day, 365 days a year. We are always available to take your calls, answer your questions and give you the care you need.

We are bonded and insured for your protection and licensed by the State of Indiana as a Home Health Care agency. We are also certified by Medicare. We are a registered member of the Northern Indiana Better Business Bureau (BBB). We are also a voting member of the Indiana Association for Home & Hospice Care.

We can provide all of your health care needs without ever leaving your home. Your care is under the supervision of a licensed nurse and can include nursing care, occupational and physical therapists, medical social workers, and home health aides. We also have working relationships with many in-home doctors who can make home visits regularly to be sure that you are receiving the care you deserve.
